The screenshot shows a Windows-style application window with a title bar containing the file path 'C:\Users\xxjfg\Desktop\EJERC' and standard window controls. The main content area has a red header 'ARREGLOS DINÁMICOS'. Below it, the program's output is displayed in a monospaced font. It shows an initial array of 10 numbers with duplicates, followed by a new array of 6 unique numbers. A final status message indicates the execution is complete.
